CULTI-DIKER

**Helps prevent soil
erosion and runoff
throughout growing
season**

**Allows better water
absorption for
increased yields and
uniform stand**

**Free floating design
for better ground
contact and uniform
pocket depth**

**Can be mounted to any
brand of cultivator,
planter, grain drill, or
tool bar**

**Extension kits
for trouble-free mounting
to grain drills**

**Forms small water
retaining pockets
to help prevent
runoff and allow for
better water
absorption**

**Many mounting options
available**

**Saves time & money
by eliminating multiple
field passes**
